International meeting within the final ENHANCE Conference

On December 13, 2018, at the FMIEADR, Bucharest, a three-hour internal meeting of the ENHANCE project was conducted. The meeting was planned to take place before the final conference of the project, taking advantage of the presence of all the partners to establish future activities.

The project coordonator, Mrs. Gina Fintineru presented the progress made since the last meeting and pointed out some aspects that need immediate attention from all the partners. A projection of the use of project budget until the project's end was presented by Mrs. Florentina Matei., informing all the partners regarding the financial reporting issues.

The meeting ended with the agreement between all the partners that the training courses and the Summer School need to continue even though the project came to an end. Further discussions will clarify the best framework for them to take place.
