

OBJECTIVES OF WP5

The objective of this work package is to ensure that the project actions will inform and make the results and deliverables of the ENHANCE project available to the scientific community and to the wider audience. On the other hand, the work package aims to facilitate the exchange of information among partners, stimulate engagement – get input/feedback – ensure the homogeneous use of the visual identity elements of the project and achieve cohesion through the different communication activities of the partners. The Twinning project's existence is communicated within the Romanian as well as the international scientific community.

The major channels are the websites of all the research institutes involved, posters at different transfer-oriented events and institutes presentations as well as participation in meetings of working groups and committees related to other R&I activities in Romania.

COUNTER – total 42

ENHANCE has organized summer school, training sessions, staff exchanges, events and workshops and has also been promoted widely by partners at a broad range of events, the most important results including:

- Seven training sessions and two summer schools.
